

To whom it may concern:

The K-LOVE signal serves this community by keeping the listeners informed of up coming events that are clean for all family members to listen to or go watch. This allows parents, and children to be free from dirty, and vulgar music lyrics/words. This signal gives the community a fresh choice to tune to for a lifting of our spirits. I'm a 19 year police officer here in San Antonio Tx., and i often play the music to my prisoners in the back seat, and it serves to calm them down, as well as provokes questions about wanting to change their lives, and become better persons, helping their community instead of being a burden for all to put up with.

It would be a terrible loss to take this signal off the air for any reason, much less to put another run of the mill music or talk radio signal in its place. Thank you for your time, and consideration on this matter.
